

Supervisory team

Dr Andrew Tomlinson, Dr Hayder Alwattar

Director of Studies:

Dr Andrew Tomlinson, Worcester Business School, University of Worcester

Supervisors:

Dr Hayder Alwattar, Worcester Business School, University of Worcester

Research Group: [Digital Innovation & Intelligent Systems Research Group](#)

Our commitment to our students is reflected in the results of the Postgraduate Research Experience Survey 2023 in which we ranked 3rd for overall research student satisfaction nationally. Key to our success in this area is the Research School, a focal point for all our research students.

It provides:

- day-to-day support for our students, both administrative and practical, through our dedicated team
- a Research Student Study Space with both PCs and laptop docking station
- a comprehensive Researcher Development Programme for students and their supervisors
- a programme of student-led conferences and seminars

Research Group / Unit / Centre

Digital Innovation and Intelligent Systems Research Group

The Digital Innovation Research Group is focussed on the application of intelligent systems to real world problems. This incorporates the design, creation and research of technological systems that dynamically respond to the world around them to address practical issues in a wide variety of applied domains. This includes computational approaches such as machine learning, artificial intelligence, modelling and simulation, data mining and pattern recognition.
